Market Survey of Arunachal Border-Bhalukpong

Date: 18.12.2021

No of Participants: 29

### Report

The Department of Economics went on a field study to Bhalukpong on 18<sup>th</sup> December 2021. The topic of the survey was "Market Survey of Arunachal Border-Bhalukpong. Dr. Chandan Sharma and Parag Jyoti Mahanta were the teachers in-charge for the survey along with 45 students. The students prepared a questionnaire and on the day of the survey they collected data from the market areas of Bhalukpong. Since Bhalukpong is in Arunachal border, so the students acquired the information about the market prices of the commodities in Arunachal Pradesh. The market survey revealed that there are differences in the price of the commodities like fruits, oil, poultry items etc. Since the diet of the locals of Arunachal Pradesh is pre dominantly non vegetarian, therefore meat and fish are cheaper there.

Outcome: The students actively participated in the survey and learnt about a new place and the market areas. The feedback of the participants were positive.
