**ONE DAY SEMINAR  
ON THE TOPIC  
RESEARCH METHODOLOGY FOR UNDERGRADUATE STUDENTS-**

Date: 18.01.2023

Resource person- Dr. D.K. Jha, Professor of Botany, Gauhati University  
Dr. K. Tayung, Professor of Botany, Gauhati University

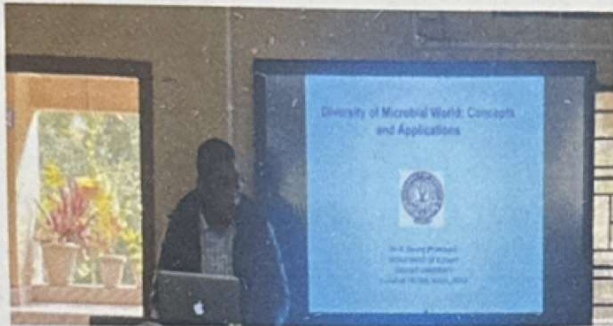

On 18<sup>th</sup> January, 2023, a one-day seminar was organized by the Department of Botany on the topic "Research Methodology for Undergraduate students" in the Smart Classroom of the Department. On this occasion eminent faculty members of Department of Botany, Gauhati University- Prof. Kumanand Tayung and Prof. D. K Jha of Department of Botany Gauhati University were invited as resource persons for a one-day seminar, interact and encourage students to pursue research work during higher studies. Further, other eminent faculties present during the seminar were Dr. Sunjira Hazarika, Associate Professor, ADP College, Nagaon and Dr. Subroto Paul, Associate Professor, Jagiroad College, Morigaon.

Prof. Tayung gave a seminar presentation themed "**Diversity of Microbial World- Concept and Application**" and the session was chaired by Prof. Jha and Co-chaired by Mrs. Ami Devi, HOD of Botany. All the students of the department were present and the session turned out to be very informative and interactive. They also informed the students about the various *research methodologies* which they can undertake during the upcoming NEP 2023 session. During the four year undergraduate program (FY-UGP), an undergraduate student would be allowed to opt for research in the final year of the graduate session and the inputs of the resource persons were fruitful in this regard.

They provided a brief scenario to the students about the following topics-choosing areas of research, funding and grants in research, use of statistical tools in research, several computational tools in research, quantitative and qualitative research methodologies. Towards the end Prof. Jha spoke about the existing problems in today's world in terms of earning livelihood and possible solutions to these problems.

The seminar proved to be successful one and the students were highly benefited by the huge chunk of information provided by both the resource persons who would further guide them in their future endeavours.
